

Panacast Hub

Jabra USB-C Hub Interface and Features

1 Cable Connection

USB-C Interface for a smooth Plug- and Play connection

Connect all other input and output interfaces to the Jabra USB-C Hub, so you only need to connect the Type-C host to your laptop.

Interface

Hub Connection Interface

1x Type-C male to connect to Type-C host PC. 1x Type-C female is used for data and charging. 2x USB-A Female. 1x HDMI Female. 1x VGA female. 1x RJ45.

USB 3.0

USB 3.0 Support

The USB 3.0 Super Speed gives 5Gbps transmission and is downward compatible with USB 2.0. The USB 3.0 ports charges and transmits data simultaneously.

USB-A

USB-A power

One USB-A (BC 1.2) comes with 1.5A (7.5W) downstream charging and the other USB-A supports 900mA (4.5W) downstream charging.

USB-C

Type-C Female Port for data and PD Charging

Type-C female port supports both data of 5Gbps and PD charging of 100W (20V/5A).

HDMI and RJ45

HDMI and RJ45 for Resolution and Bandwidth

The HDMI port supports a resolution of up to 4Kx2K@30Hz. VGA supports a resolution of up to 1920x1200@60Hz. RJ45 port supports a bandwidth of 10/100/1000Mbps.

NB: Supports Fast Role Swap of PD 3.0, the connected device will not get disconnected while plugging in and out PD Adapter

***APAC and China SKU of the Jabra Hub comes without a power supply that must be sourced separately**
